

Proporciones de Verano (J)

Escriba cada proporción en números, y simplifique de ser necesario.

$$\text{Bicycle} : \text{Sun} =$$

$$\text{Bicycle} : (\text{Bicycle} + \text{Sun}) =$$

$$\text{Sunflower} : \text{Bucket} =$$

$$\text{Sunflower} : (\text{Sunflower} + \text{Bucket}) =$$

$$\text{Shovel} : \text{Sandcastle} =$$

$$\text{Shovel} : (\text{Shovel} + \text{Sandcastle}) =$$

$$\text{Beach Ball} : \text{Sunglasses} =$$

$$\text{Beach Ball} : (\text{Beach Ball} + \text{Sunglasses}) =$$

Proporciones de Verano (J) Respuestas

Escriba cada proporción en números, y simplifique de ser necesario.

$$\text{Bicycle} : \text{Sun} = 5 : 16$$

$$\text{Bicycle} : (\text{Bicycle} + \text{Sun}) = 5 : 21$$

$$\text{Sunflower} : \text{Bucket} = 5 : 8$$

$$\text{Sunflower} : (\text{Sunflower} + \text{Bucket}) = 5 : 13$$

$$\text{Shovel} : \text{Sandcastle} = 21 : 20$$

$$\text{Shovel} : (\text{Shovel} + \text{Sandcastle}) = 21 : 41$$

$$\text{Beach Ball} : \text{Sunglasses} = 16 : 5$$

$$\text{Beach Ball} : (\text{Beach Ball} + \text{Sunglasses}) = 16 : 21$$
