

## Division de Corazones (E)

¿Cuál es el valor de cada corazón?

$$539 \div \text{G} = 7$$

$$48 \div \text{M} = 4$$

$$60 \div \text{V} = 2$$

$$183 \div \text{H} = 3$$

$$568 \div \text{J} = 8$$

$$324 \div \text{N} = 6$$

$$483 \div \text{F} = 7$$

$$64 \div \text{R} = 1$$

$$165 \div \text{T} = 3$$

$$174 \div \text{Q} = 6$$

$$264 \div \text{W} = 3$$

$$592 \div \text{P} = 8$$

$$475 \div \text{L} = 5$$

$$360 \div \text{S} = 4$$

$$450 \div \text{D} = 6$$

$$576 \div \text{E} = 9$$

$$276 \div \text{K} = 4$$

$$265 \div \text{C} = 5$$

Ahora calcule las siguientes respuestas:

$$\text{P} + \text{W} =$$

$$\text{T} + \text{F} =$$

## División de Corazones (E) Respuestas

¿Cuál es el valor de cada corazón?

$$539 \div \text{G} = 7$$

77

$$48 \div \text{M} = 4$$

12

$$60 \div \text{V} = 2$$

30

$$183 \div \text{H} = 3$$

61

$$568 \div \text{J} = 8$$

71

$$324 \div \text{N} = 6$$

54

$$483 \div \text{F} = 7$$

69

$$64 \div \text{R} = 1$$

64

$$165 \div \text{T} = 3$$

55

$$174 \div \text{Q} = 6$$

29

$$264 \div \text{W} = 3$$

88

$$592 \div \text{P} = 8$$

74

$$475 \div \text{L} = 5$$

95

$$360 \div \text{S} = 4$$

90

$$450 \div \text{D} = 6$$

75

$$576 \div \text{E} = 9$$

64

$$276 \div \text{K} = 4$$

69

$$265 \div \text{C} = 5$$

53

Ahora calcule las siguientes respuestas:

$$\text{P} + \text{W} = 162$$

$$\text{T} + \text{F} = 124$$
