

Division de Corazones (G)

¿Cuál es el valor de cada corazón?

$$70 \div \text{F} = 7$$

$$432 \div \text{H} = 9$$

$$528 \div \text{Q} = 8$$

$$49 \div \text{M} = 1$$

$$468 \div \text{G} = 6$$

$$426 \div \text{D} = 6$$

$$63 \div \text{W} = 3$$

$$497 \div \text{P} = 7$$

$$64 \div \text{S} = 1$$

$$366 \div \text{B} = 6$$

$$148 \div \text{E} = 4$$

$$65 \div \text{A} = 1$$

$$192 \div \text{C} = 6$$

$$180 \div \text{K} = 2$$

$$192 \div \text{R} = 3$$

$$26 \div \text{T} = 2$$

$$704 \div \text{V} = 8$$

$$285 \div \text{N} = 3$$

Ahora calcule las siguientes respuestas:

$$\text{B} + \text{C} =$$

$$\text{G} + \text{P} =$$

Division de Corazones (G) Respuestas

¿Cuál es el valor de cada corazón?

$$70 \div \text{F} = 7$$

10

$$432 \div \text{H} = 9$$

48

$$528 \div \text{Q} = 8$$

66

$$49 \div \text{M} = 1$$

49

$$468 \div \text{G} = 6$$

78

$$426 \div \text{D} = 6$$

71

$$63 \div \text{W} = 3$$

21

$$497 \div \text{P} = 7$$

71

$$64 \div \text{S} = 1$$

64

$$366 \div \text{B} = 6$$

61

$$148 \div \text{E} = 4$$

37

$$65 \div \text{A} = 1$$

65

$$192 \div \text{C} = 6$$

32

$$180 \div \text{K} = 2$$

90

$$192 \div \text{R} = 3$$

64

$$26 \div \text{T} = 2$$

13

$$704 \div \text{V} = 8$$

88

$$285 \div \text{N} = 3$$

95

Ahora calcule las siguientes respuestas:

$$\text{B} + \text{C} = 93$$

$$\text{G} + \text{P} = 149$$
